ON THE BACK!

What brings me joy as a NURSE?

Easing your pain.

Providing education.

Wiping away your tears.

Maintaining your modesty.

Helping you through a hard time.

Lending my ear to hear your concerns.

Researching ways to improve your care.

Watching you build your strength back up.

Laughing with you when you need a break.

Holding your hand when you need extra support.

Advocating your desires when you are without a voice.

What brings me joy as a NURSE?

Simply said, being YOUR nurse!
